Choice selections in the balcony are available for that occasion, however.

At all future performances certain seats only will be reserved, thousands of seats comparing favorably with the best accommodations of most theatres being sold unreserved at decidedly popular prices. This means that those arranging for parties far in advance may be assured of property of the company of th precisely the accommodations they desire at box office prices without the payment of brokers' "premiums." And it also means that the casual visitor may secure accomnodations at all times thousands of seats at economical
